

## PRODUCT RANGE GARDENING/DIY

Gardening made easy

## FVG – HOME GARDENING SOLUTIONS

Our gardening product range reflects our commitment to best manufacturing practices and superior-quality materials for more than 40 years.

The materials we use are recycled PET, robust HDPE or premium quality PP. Depending on the application, we ensure optimum material processability with a focus on environmental friendliness – both in the production process and in the ultimate application.

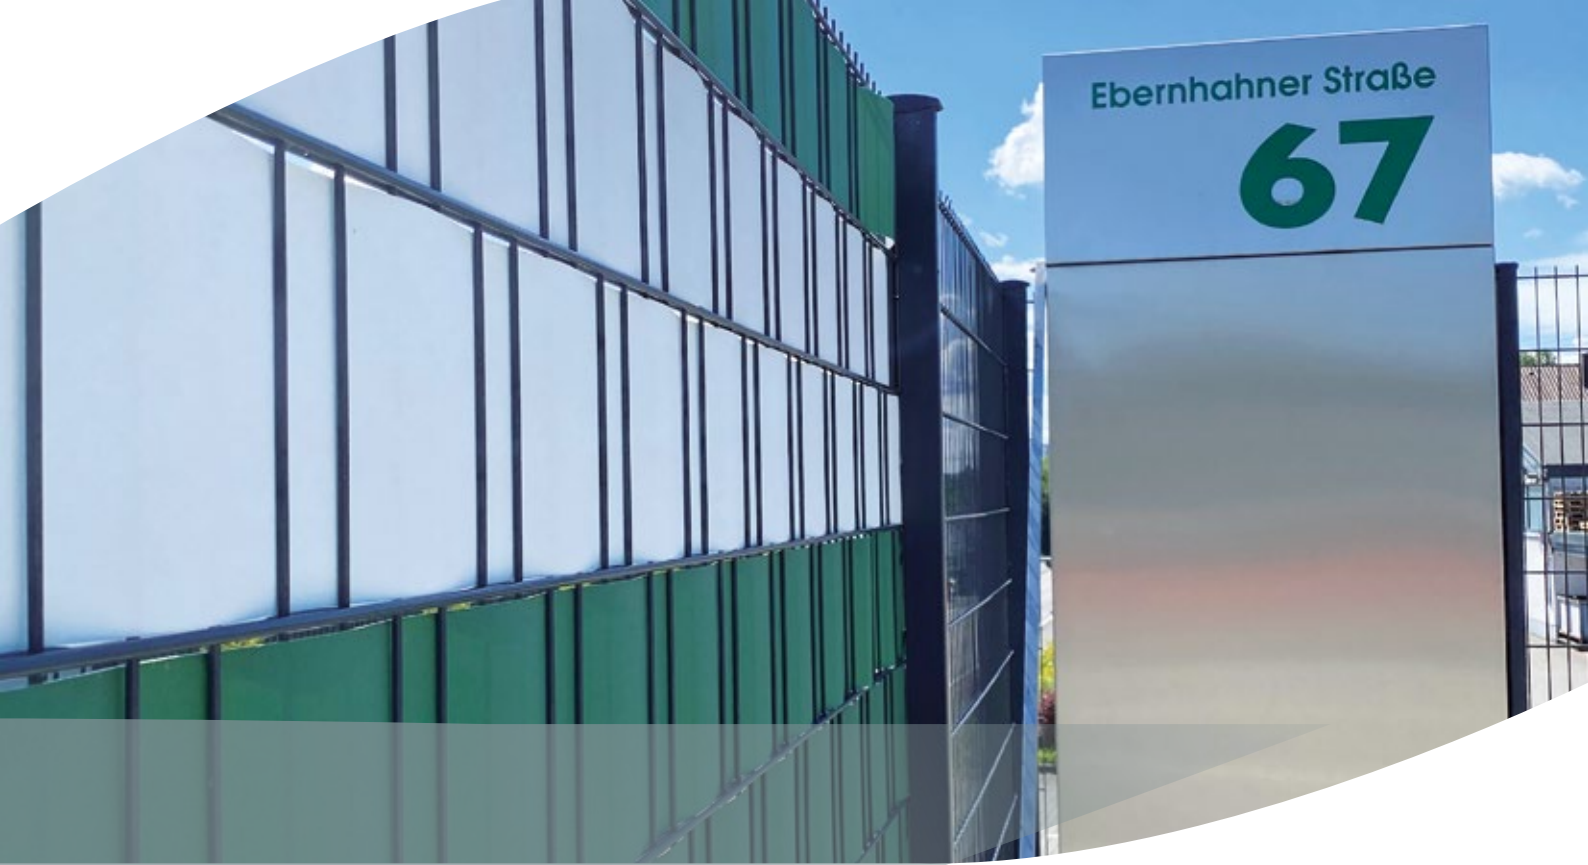

Protect your plants and landscape your garden to create the perfect outdoor environment. Our high-end products appeal to gardeners of all abilities, from amateur to professional, and make it possible for hobby gardeners to become self-sufficient. Green figures are guaranteed with these uncomplicated solutions that are easy to handle and good to use.

Benefit from our many years of experience in the market and innovative solutions that you can enjoy for many years to come.

Sincerely,

**Hendrik Klar**

Managing Director

Privacy screens	16-17
Successful start / cold frame	18
Professional quality in the home garden / film greenhouse	19

# RESPONSIBILITY

for the environment, people and the future

Plastic is an important material, and in many areas of application there is no alternative. As manufacturer and trader in PE, PP and PET products, we are well aware of our special responsibility: not just our responsibility towards customers, but also our responsibility for keeping the environment and our climate intact for future generations to enjoy.

Our products are coordinated, complement each other and support you in creating a garden oasis or a self-sufficiency plot. By cultivating your own fruit and vegetables you can cut down on trips to the shops and reduce your carbon footprint. Garden naturally without chemicals for uncompromisingly healthy foods.

Our PET is a recycled material. We re-purpose empty bottles and create practical and useful products out of everyday waste.

Our PP material is UV-stabilised to guarantee its durability and give you plenty of time to enjoy the product – it's the easiest way to prevent waste.

Our PP material is also REACH-compliant, contains no harmful substances such as cadmium, heavy metals or softeners, and it burns without any known health or environmental risks.

All our input materials are produced in Europe, which means short supply routes and lower CO<sub>2</sub> emissions – another bonus for the environment.

# RESPONSIBILITY

means concrete and consistent action

- High quality raw materials
- No harmful substances
- Nearly all products are 100% recyclable
- Sustainability through durability
- Raw materials sourced in Europe
- Avoidance of packaging
- Reduction of transport volumes
- 70% of power consumed is self-generated solar power
- Cooperations with customers and associations in the material cycle

Sustainability

# HIGH-QUALITY PRODUCTS

The quality of our products is essential to our customers' success. Both our in-house laboratory team and our experts check and inspect our products.

Modern measurement and testing methods deliver fast and reliable results, allowing us to guarantee the high level of quality that contributes to your success.

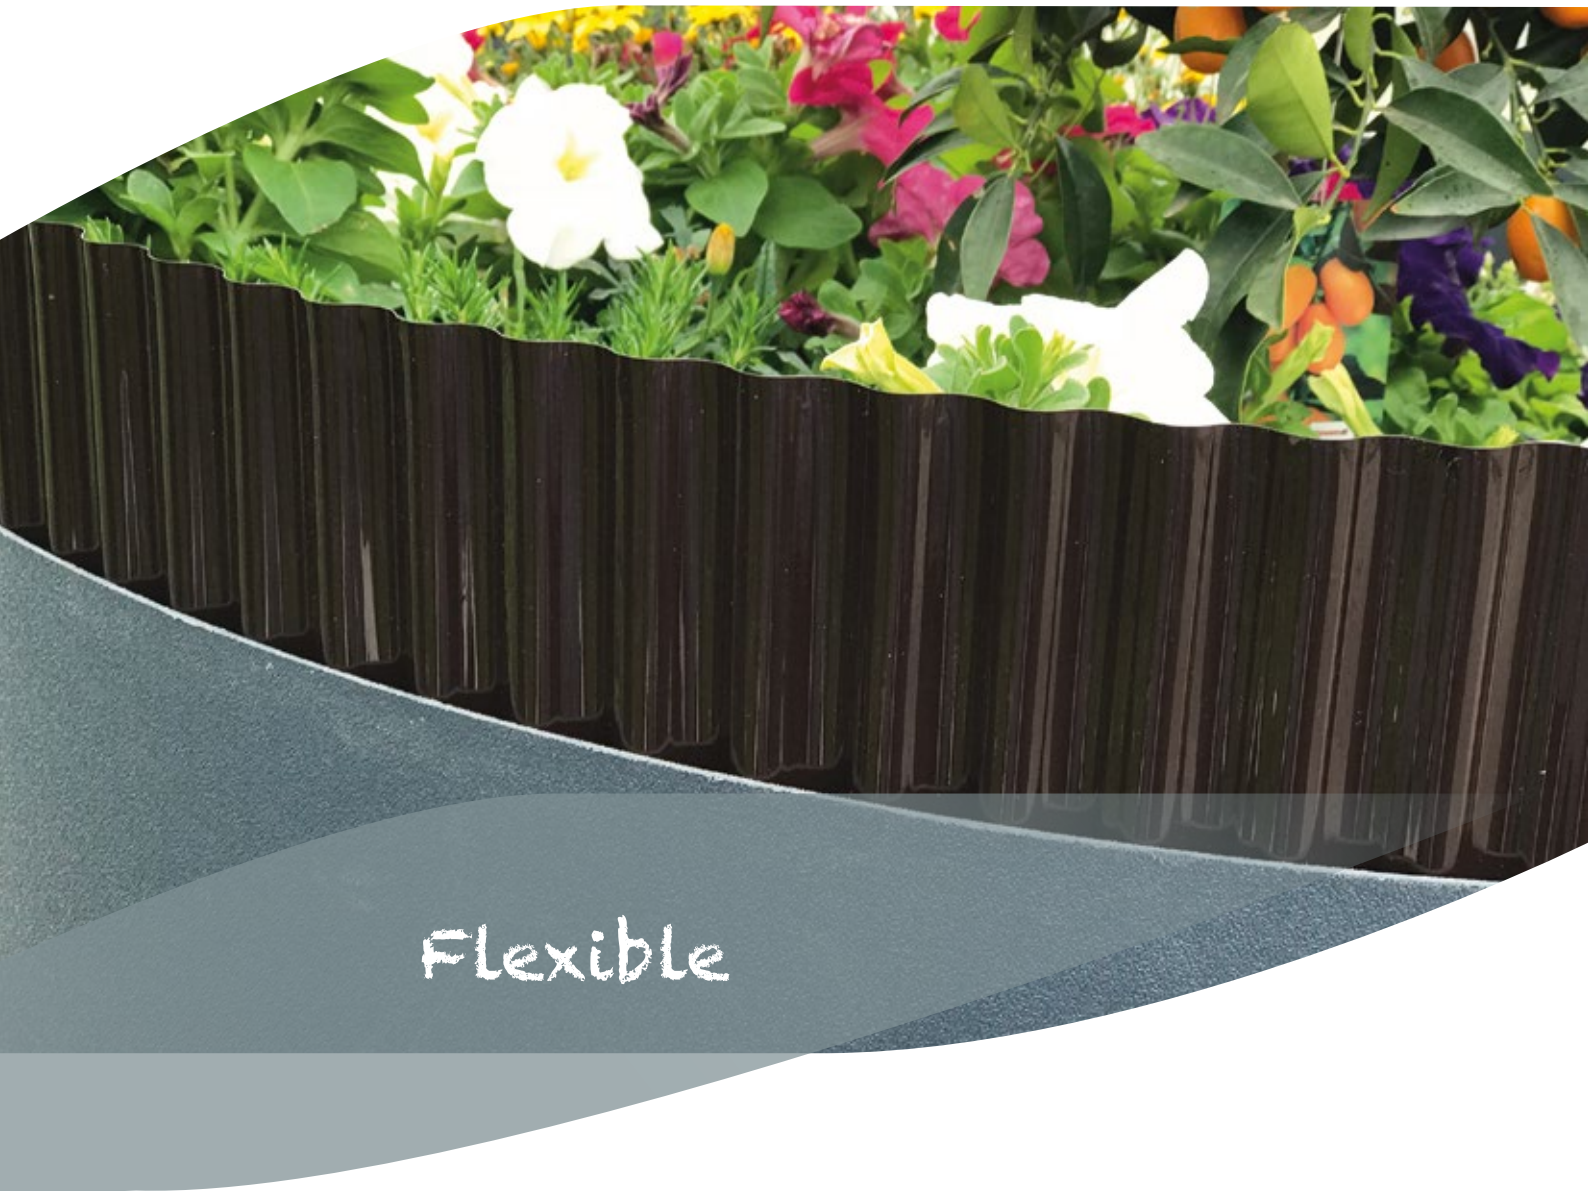

## YOUR POS – OUR MISSION

Product sales depend to a great extent on your product presentation concept. We offer the perfect display for every product – customisable and with your layout and branding, with or without fittings.

We can also use your CI on the product to ensure a 'seamless' presentation concept.

# CREATING STRUCTURE IN THE GARDEN

Flexible

Create structure in your garden by separating mulch areas from lawns, beds from rockeries and trees from borders.

Edgings with different heights and corrugations are available for various gardening projects in various colours for freedom of design, and in two different thicknesses depending on the application.

## LAWN EDGES

### MATERIAL: PET, LIGHT VERSION

Available in the following colours:

- Green, similar to RAL 6028
- Anthracite, similar to RAL 7016
- Taupe, similar to PANTONE 407C

Dimensions	Corrugation	Pack unit (pcs.)	Shipping unit (pcs.)
0.15 m x 9 m	Sine wave	12	576
0.20 m x 9 m	Sine wave	6/12	384
0.30 m x 9 m	Sine wave	6	288
0.10 m x 9 m	Trapezoid	18	864
0.15 m x 9 m	Trapezoid	12	576
0.20 m x 9 m	Trapezoid	6/12	384
0.30 m x 9 m	Trapezoid	6	288

0.20 m x 6 m	V-shaped	5	400

# ECOLOGICAL GARDENING – WITHOUT CHEMICALS

Ecological

Assembly instructions – scan the QR code and watch the video.

Nobody likes to see all their hard work being eaten away by slugs, but to use poison goes against the ideal of cultivating healthy foods in harmony with nature. So, what is an effective alternative?

## WE HAVE THE SOLUTION: THE FVG SLUG BARRIER

- Utility model protection
- SLG tested
- Made of recycled PET
- Available in two standard lengths, or custom lengths
- Two thicknesses

### MATERIAL: PET, LIGHT VERSION

Translucent green	0.20 m x 14 m	6	480

Display solution: SU44

### MATERIAL: PET, HEAVY VERSION

Colour	Dimensions	Pack unit (pcs.)	Shipping unit (pcs.)
Translucent copper	0.20 m x 8 m	6	480
Translucent copper	0.20 m x 14 m	6	480

# ROOT BLOCK / BAMBOO BARRIER

## WE CAN STOP UNCHECKED ROOT GROWTH

The perfect product for every application:

- To contain tree and shrub roots
- To effectively prevent aggressive root growth e.g. bamboo roots
- To simplify watering your plants

We offer light PET and robust HDPE versions depending on your application – so that you can always keep your plants in check.

## ROOT BLOCK

For containment of root growth and to create a visual boundary around trees without strong roots.

- Material: PET
- Including adhesive fastener
- Cut to size with scissors
- Welded

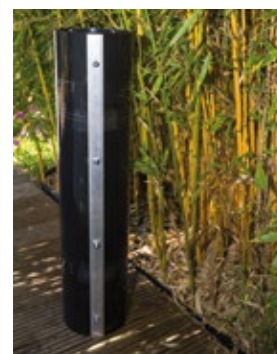

Material	Colour	Corrugation	Dimensions	Pack unit (pcs.)	Shipping unit (pcs.)
PET	green	Sine/trapezoid	0.60 m x 3.50 m	6	162
PET	black	Sine/trapezoid	0.60 m x 3.50 m	6	162

## BAMBOO BARRIER

Strong HDPE material effectively contains even the most aggressive of roots, such as those of the bamboo plant.

- 2 mm thick HDPE
- Professional quality
- Very stable and durable
- Rhizome resistant
- Including aluminium fastening profile, grooved on the inside
- Other dimensions/ thicknesses are available
- Display solution available

Material	Thickness	Colour	Dimensions	Shipping unit (pcs.)
PEHD	2 mm	black	0.80 m x 3.20 m	48
PEHD	1 mm	black	0.60 m x 5.00 m	120
PEHD	1 mm	black	0.60 m x 10.00 m	120

## WATERING RIM

Extremely durable, half-height rim that is put around individual plants to simplify watering. It can also be used to prevent plants from growing into other beds.

- 2 mm thick HDPE
- Professional quality
- Very stable and durable

Material	Thickness	Colour	Dimensions	Shipping unit (pcs.)
PEHD	2 mm	black	0.25 m x 25 m	66

# familyGarden

BY FVG - FOLIEN

For self-sufficient gardeners

The "Family Garden" brand stands for high-quality, durable and stylish products.

As a result, you can enjoy them for many years to come. And since they are made of eco-friendly materials, you can garden with a clear conscience.

All the products in the range are made from premium quality polypropylene. The material is UV-stabilised for long lifespan.

Our PP material is also REACH-compliant, contains no harmful substances such as cadmium, heavy metals or softeners, and it burns without any known health or environmental risks. Another advantage is that the raw materials are all sourced in Europe.

## HERB SPIRAL

- Material: PP
- Extra-stable: 2 mm thick
- Pre-punched holes incl. screws
- Simple assembly
- Modern design
- Two different sizes
- Utility model protection

Dimensions	Thickness	Pack unit (pcs.)	Shipping unit (pcs.)
35 cm x Ø 55 cm	2 mm	4	120

Privacy screens

# OUR PRIVACY SCREEN RANGE

Our PRIVACY SCREEN product line, made of premium polypropylene, provides effective view protection, is design-oriented and stylish, as well as being sustainable, durable and eco-friendly.

We have the perfect roll for every application. Transform your fence into a design element and create an oasis of calm in your own garden, or a stylish divider to screen off unsightly areas. Protect your privacy with opaque screens. We have the perfect product for every requirement - modern, easy to care for and durable.

We have an entire portfolio of privacy screen solutions. All you have to do is choose your favourite:

- Rolls – top quality in one piece: rolled strips in different lengths
- Privacy screen dispenser roll – unique, innovative and practical
- Design roll – solution-oriented: a finished design for your fence
- Mini roll – for retrofits: and minor corrections
- Coex – for unlimited creativity: bi-colour strips
- Translucent – playing with sunlight: a bright spot for your garden
- Braided texture – cosy: rattan mesh-like structure
- 4.7 cm wide strips – plenty of colour options for your 3D fence

This is such a varied and interesting product range that we have created a separate catalogue for it: Request our “View Protection Products and Systems” catalogue!

# 2 IN 1 COLD FRAME GREENHOUSE

Practical, durable and made of high-quality steel parts and materials. The high-quality film protects early crops in the colder months. The insect net against insects provides also shading in summer – maximising your yield across the entire season.

## DIMENSIONS:

Width: 1.15 m; Length: 2.00 m; Height: approx. 0.68 m

## IMPRESSIVE MATERIALS

- Extra strong, high-transparency greenhouse foil with UV guarantee (4 years)
- Close-meshed insect net with shading function for protection in the summer. 5 years guaranteed UV stability
- Tube system: Professional cultivation quality, stable and durable (27 mm galvanised steel tubes)
- Easy assembly with detailed instructions
- Ground anchors for high wind resistance
- Film and insect net can be repurchased separately
- All-in-one pack (1.2 m x 0.7 m x 0.15 m).

# “PROFI” POLYTUNNEL

## PROFESSIONAL QUALITY FOR HOME GARDENS

Our “Profi” polytunnel delivers impressive yields. It is made of superior quality materials with professional properties.

### DIMENSIONS:

Width: 2.50 m; length: 4 m

height: approx. 2.38 m; side height:

1.20 m; arch spacing: 2 m

## PROFESSIONAL CULTIVATION – WITH A STABLE TUBE SYSTEM AND PROFESSIONAL STANDARD GREENHOUSE FILM THAT IS USED BY MARKET GARDENERS

- Greenhouse film: FVG Sun Saver EVO AC as used by market gardeners: 8-layer film with permanent anti-condensation, 180µ thick, 5-year UV stability warranty, UV-open, light transmission up to 93%, thermal, no fogging, not available from standard retailers, technical properties that support year-round cultivation, made of recyclable PE (polyethylene)
- Tube system: professional cultivation quality, stable and durable
- No substructure necessary, secured with ground anchors
- Can therefore be easily moved to a new location
- Easy assembly with easy instructions
- Can be extended and retrofitted at any time
- All-in-one pack

## Home solutions

- Competent advice and individual solutions
- Premium quality products, custom designs
- Clever display concepts for your POS
- Fast and punctual deliveries
- Dedicated contact
- Worldwide shipment
